## Benefits of being a PsySSR Member

- ✓ A **community** of students who share their knowledge of psychology to build a culture of peace with social justice.

**Students also enjoy the same benefits as all other paid members of Psychologists for Social Responsibility:**

- ✓ Membership in a **larger network** of professionals who are committed to peace building and the construction of social justice.
- ✓ Opportunity to participate in PsySR Action Groups
- ✓ Email alerts and updates on PsySR activities and projects.
- ✓ **Resource materials** and **staff support** from our office in Washington, D.C.
- ✓ **Annual meetings** and programs, usually held in a hospitality suite during the American Psychological Association Convention.
- ✓ Participation in national and regional **PsySSR Conferences**.

## Starting a PsySSR Chapter at your school

If you are interested in forming a local chapter, PsySR will assist you with getting started, planning events, and getting plugged in with other PsySSR members.

### The Basics:

Any group of **5 or more students** enrolled at a university or college may organize a chapter.

The chapter will hold **at least one fall and one spring event**. (Such as: speakers, field trips, films, discussions, debates, etc.)

The chapter will select a **faculty advisor**, and will elect a **president, vice-president, secretary, and treasurer**.

The chapter may join in **coalition** with other campus groups working for peace and social justice and/ or other PsySSR chapters, given the consensus of its members.

**Contact PsySR  
to receive your own copy of the  
PsySSR Chapter Starter Kit!**

## PsySSR Mission

**As students we are working to:**

- Transform training in psychology itself to prepare socially responsible professionals.
- Advocate for social justice by being socially and politically active.
- Educate others about successful measures for violence prevention, conflict resolution, and peace building.
- Support ethical and effective assistance to survivors of violence in private and public spheres.
- Reduce prejudice and discrimination by applying knowledge about the causes of sexism, racism, ethnic hatred, and other forms of oppression.
- Decrease military defense budgets and advocate for meeting basic human needs -- including actions to decrease poverty, provide health care, promote healthy environments, and protect human rights.
